1/21/23, 10:56 AM Household Data

Household Data

The data requested by the questionnaire are anonymous and will be used exclusively for research purposes. The aim of the research is to produce, through machine learning techniques, models that will relate household electricity consumption to a) variables concerning the houses themselves, b) socio-economic data concerning the occupants as well as c) behavior patterns of the occupants.

To complete the questionnaire you will need at least one electricity bill (ideally two: one for summer and one for winter) and 5-10 minutes of your time.

Important information

The intended goal of the questionnaire is to gather a repository of anonymous data that will include information about the building, behavior and socio-economic data about the tenant, as well as the actual electricity consumption over given periods of time.

The form is available for completion by any adult who wishes to do so.

The survey does not include the storage of data that could directly or indirectly lead to the identification of the person completing the application or other persons related to it.

All processing of personal data is carried out in compliance with the General Regulation on the Protection of Personal Data by taking the appropriate technical and organizational measures. Your personal data are kept only for the period of time required for the legal purposes for which they were collected by ensuring their safe destruction, when the legally prescribed period of time has passed or the purpose of their processing ceases to exist and there is no legal requirement or legal interest or right in continuing to observe them. You can find out more about the AUTH's Privacy Policy at https://www.auth.gr/wp-content/uploads/politiki_prostasias_apth.pdf

After submitting your answers, it is no longer required for the purposes of the survey to verify your identity from the controllers of your personal data, as a result of which the latter are not required to obtain or retain or process additional information for the purpose of verifying identity your. Consequently, the following rights do not exist: a) the right to access your personal data, b) the right to rectification, c) the right to deletion, d) the right to limit processing and e) the right to data portability in accordance with the General Personal Data Protection Regulation
